Profile

I'm a passionate Software Engineering student with hands-on experience in full stack web development, specializing in building modern, responsive, and scalable web applications.

Education

Bachelor of Science, Computer Software Engineering	**Jan 2023 - Jan 2027**
PMAS Arid Agriculture University, Rawalpindi	
FSc, Pre-Engineering	**Jan 2021 - Jan 2023**
Govt. Higher Secondary School Shaher Sultan	

Employment

Web Development Intern — **Feb 2025**
ProConnex (Self-Initiated Project)
Developed Python scripts automating data extraction processes for over 100 datasets, significantly reducing extraction time by 40%. Designed and developed mobile-first, responsive web pages using HTML, CSS, JS, and EJS templating.

Certificates

Create your e-commerce store with Shopify	**Sep 2025**
Search Engine Optimization (SEO) with Squarespace	**Sep 2025**
Build a computer vision app with Azure Cognitive Services	**Aug 2025**
Resume Writing and Job Interviewing	**Aug 2025**
Social Media Marketing	**Aug 2025**

Projects

Proconnex — **Feb 2025**
ProConnex | Empowering Freelancers. Connecting Talent with Opportunity. ProConnex is a professional freelancing platform that brings together job seekers and job posters in a unified space. From smart dashboards to secure payments, training hubs to active forums — ProConnex helps freelancers grow, connect, and succeed in the digital world.

Course Manager — **Aug 2025 - Sep 2025**
This is just like your files manager for your semester files like Theory (Lectures, Quizzes, Assignments ,Notes) to be uploaded here and can be viewed at any time and can be downloaded and modified also.
